

THURSDAY OCTOBER 27. 1743.

Yesterday arrived a Mail from France.

Frankfort, October 27.

His Army of the Allies has actually repuls'd the Rhine, and cannon'd in several Places. That of Prince Charles of Lorraine continues its March thro' the Black Forest, in order to go and take Winter Quarters in Bavaria and the Upper Palatinate; except 14,000 Foot, two Regiments of Horse, and four of Hussars, which are to remain in the Brigaw.

A Report begins to gain Ground here, as if the French were sending a Bridge of Boats, and some Pieces of Artillery, up the Rhine, as if they had a View upon Friburg. We shall very soon see how well this Conjecture is founded. We shall also learn, in Time, whether there be any Credit due to another Report, as if mighty Disturbances were arisen in Hungary, on account of the Roman Catholics having seized some of the Churches belonging to the Protestants. As the Troops of the Allies had committed some Excesses, in their March thro' the Dominions of the Elector of Mentz, his Highness complain'd to their Generals, who instantly publish'd an Order, forbidding such Practices, under very severe Penalties.

Creutznach, October 22. Col. Mentzel is much better, and, indeed, never was so bad as some German Gazettes represented him. He begins to walk again upon his fore Leg, tho' with the Assistance of a Cane. Already he meditates new Incursions, and is actually making Dispositions for that Purpose, and will not fail to be very soon at the Head of his Corps. Capt. Wegely, who commands part of his Cavalry, is this Moment returned from making an Irruption into Lorraine; from whence they have carried an immense Booty in Cattle, Horses, and Wine.

Mauheim, October 24. On the 21st of this Month arrived here the Duke of Saxe-Hildburghausen, with a very numerous Retinue, and about 160 Recruits for his Regiment, which is now in Garrison here, and was formerly called of Saxe-Meiningen. We are making mighty Preparations for a great Stag Chase, which the Elector is to give shortly; and to assist at which, the Prince of Nassau-Saarbrück is already arrived. We learn with the utmost Astonishment, that Capt. Wegely, who commands part of Mentzel's Hussars, with the Lieutenants Browne and Morgenstern, and a Corps of 430 Men, should commit so many Outrages in Lorraine, and carry off at last so great a Booty, without ever meeting the least Interruption from the several Bodies of French Forces dispersed thro' that Country; and in the midst of which they ranck'd upwards of 20 Villages, without meeting with any Check, or the least Mistake.

Extract from the Paris Almanac.

Paris, November 1. The King, out of a tender Regard to the Welfare of his Subjects, and, in order to encourage the Exportation of our Manufactures, has taken off all the Duties outwards of Woollen Stuffs, and other Goods.

M. d'Argens, who has been for some time at Berlin, arrived lately at Court, charged, as it said, with Dispatches of the last Importance. He assured us, that the King of Prussia, if he brings his Projects to bear, will be able to accomplish the adjusting a general Peace before Easter. That, on the contrary, if his Plan of Peace should be rejected, in which Case has been taken to secure honourable and satisfactory Conditions for the Emperor and the Queen of Hungary, his Prussian Majesty will march in the Spring a puissant Army against whoever opposes it.

We are extremely busy in adjusting the Exchange of Prisoners, according to the new Cartel made at Frankfort. Those taken since the Battle of Dettingen, and those who surrender'd at Egra, are not included.

The French Garrison that was in Ingoldstadt, as also the Prisoners of War in Bavaria, and elsewhere, and who were comprized under the Capitulation made with M. Grandville, are returned into Alsace, and amount to no less than 3500 Men.

We continue to raise and regiment our several new Troops, and, at present, are employ'd in augmenting with 10 Men per Troop all the Dragons in the Service. The Regiment of Dauphine is already complete both in Men and Horses.

All the Household Troops are in full March hither. The First Battalion of the Regiment of French Guards is expected here by the 12th.

We are assured, that the King of Great Britain caused the Emperor to be informed, before he set out for Hanover, that he was going to terminate, as soon as possible, the Differences subsisting between his Imperial Majesty and the Queen of Hungary.

The Troops which compos'd the Army of the Marshal Noailles, begin to debite towards the Sarre and the Moselle. On the 19th all the Artillery was sent away for Strasbourg, La Ferte, and Howay.

Letters from the Upper Rhine assure us, that Marshal Coigny only waits, in order to separate his Army, the entire Retreat of the Enemy; who have lately, formed, a little below Rheinweller, a Camp of between 8 and 10,000 Men, and one of the like Number below Strasbourg.

Private Advices say, That Col. Mentzel has appeared on the Frontiers of German Lorraine; and that Baron Trenck, Colonel of Pandours, has made some Motions on the Side of Old Brisse.

Actions 2202.

ANTI-SYPHILICON.

THE only short and most infallible

Cure in the Universe for the Venereal Disease, from the slightest Infection to the most extreme and deplorable Degree of it, even when the Blood and Juices are thoroughly contaminated with its malignant Virus, and the very Bones are affected with it.

Fresh Infections, call'd **CRAWS**, with all their attendant Symptoms, tho' ever so severe, are entirely carried off by it in a few Days, and so as effectually to prevent the Blood and Juices from being tainted with any remaining Relicks on one Hand, or a seminal Gleet or Weakness to happen on the other.

And the most inveterate Degree of the Venereal Disease, attended with Nocturnal Pains, universal Breaking out, and all the other most exasperated Symptoms, are soon overcome by it, and effectually and much more safely cured than by Salivation, Inunction, or any other Method whatever, and in so easy and pleasant a Manner, without impairing Strength, or occasioning any Inconvenience, as to be capable of the only apposite Remedy or true Venereal Antidote in the World; and this some Thousands have to their great Joy experienced.

It is pleasant to take, occasions no Sickness or Disorder, nor requires Confinement; but may be taken, and the Cure be accomplish'd, without the Knowledge of the nearest Friend.

Those who suspect they have received an Injury, may, by only a Dose or two of it, be perfectly freed from all Apprehensions; for it suffers no lurking Venom to lie hid in the Body, but wholly extirpates its Root and Branch, in a gentle, easy, and most effectual Manner.

All such likewise as doubt they have some remaining Relicks of former Injuries, may by a few Doses of it entirely free themselves from all Suspicion of that Kind; for it admits of no Foulness, Corruption, or Putrefaction whatever, to remain in the Fluids, or to adhere to the Solids; and on the Account, in all scorbutick, scrophulous, and even leprous Eruptions or Foulnesses of the Skin, Glandulous Swellings and Impurities of the Juices; it does more by one Dose, than any other Medicine yet known can by ten.

The Price of this most Noble **ANTI-SYPHILICON** is but Six Shillings a Pot, which, considering its extraordinary Efficacy, one Pot only being sufficient in most Cases to accomplish the Cure, is not a tenth Part of its Value; and is appointed by the Author to be had only at Mr. RAYMOND's Toyshop, at the Rose and Crown against St. Clement's Church-Yard in the Strand, ready sealed up with a Book of Instructions, by the Perusal of which, all Persons who were ever affected with any Degree of the Venereal Disease, may perfectly understand their own Condition, and certainly know when, and when not, the Venereal Poison is entirely rooted out of their Bodies.

Note. Ask only for a Six Shilling Pot for the Scurvy.

The incomparable POWDER for Cleaning the TEETH,

Has withstood, by its most excellent and known Virtues, the Attempts of many repeated Counterfeits; some imitating it by the Name of Powder, others under several other Names; therefore pray take Notice, that the only true effectual and original Powder, is sold no where else, but as mentioned below: It is sent for in large Quantities from the Plantations beyond the Seas, where good Allowance is given; and is as effectual in the East and West Indies as at London.

It has given surprizing Satisfaction to most of the Nobility and Gentry in England, near 40 Years last past, that it hath been published, and vast Quantities of it still continue to be sold.

It is sold only at Mrs. King's Toyshop, the Blue-coat-Bay, against the Cross-Keys Tavern in Cornhill, and at Mr. Markham's Great Toyshop, the Seven Stars now (since the is removed) directly over-against St. Dunstan's Church in Fleet-street, and no where else in England at 1s. each Box.

N.B. Pray mind you send to the right Place; for the Shop Mrs. Markham is removed from, has also got the Seven Stars for its Sign.

At once using it makes the Teeth as white as Ivory, tho' ever so black or yellow before, and effectually preserves them from rotting or decaying, continuing them sound to exceeding old Age. It wonderfully cures the Scurvy in the Gums, prevents Rheum or Disruption, kills the Worms at the Roots of the Teeth, and thereby hinders the Tooth-ach. It admirably fastens loose Teeth, being a neat cleanly Medicine, of a pleasant and grateful Scent, and in Virtue far exceeds any Thing ever yet found out for those Purposes.

All the Nobility, Gentry, &c. who send to Mrs. Markham for the Powder for Teeth, are desired to give strict Orders not to mistake the Shop, (**MARKHAM** at length is under the Seven Stars) because most of the Toyemen in her Neighbourhood, seeing Multitudes go to her Shop for it, have transported Counterfeits and sell their Stuff in Imitation of this known and approved Powder, in Prejudice to the Publick, &c.

The **LIP-SALVE**.

Which is so much esteemed, and of so many Years large Experience, and whose Virtues vastly exceed any of the many Counterfeits, since its first Publication, is sold at the same Places at 1s. each Box.

For in two or three Hours time it heals them, tho' never so rough or chapt; prevents the Skin from peeling, and makes them delicately soft and smooth, giving them a becoming rosy-brown Colour; the Fragrance of its Odour also renders the Breath fine and sweet, and it may be eaten for its Safety.
